Set consists of :
1x 150W DC-to-DC ATX Adapter with 4-pin Power DIN (AK-PE150-05)
1x 150W AC-to-DC Adapter with 4-pin Power DIN (AK-PD150-02KEU)

AK-PE150-05

- Features the essential wires and connectors for Small Form Factor (SFF) motherboards to perfectly fit into any compact chassis
- Provides highly efficient power transfer up to 92% coupled with Over Power Protection (OPP) and Over Voltage Protection (OVP)
- Fanless design ensures zero noise, making it perfect for silent builds
- Suitable for any motherboard with an ATX 24-pin connector including common Mini-ITX motherboards
- Perfect for Intel CoreTM i7 or AMD RyzenTM 5 processors up to 65W TDP with high current
- Compatible with AK-PD150-02K external power adapter or external power adapters with 4-pin male DIN connector

AK-PD150-02KEU

- 150W, 12V external power adapter designed for DC-to-DC ATX power supplies with 4-pin DIN design. Maximum load of 12.5A.
- Maximum output 150W
- Fanless design
- High efficiency
- 4-pin male DIN connector
- Single 12V rail 12.5A
